**Goldfields-Esperance Strategic Development Plan 2011
-2021**

Regional Development Australia Goldfields Esperance and the Goldfields Esperance Development Commission officially launched their joint 2011-2021 Strategic Development Plan on Monday 18th April, 2011. The Plan is also endorsed by the regions nine local governments, making it a true partnership between all levels of government.

The launch of the Plan was attended by West Australian Senator Glenn Sterle, key local stakeholders, the media, and a representative from the Department of Regional Australia.

The Strategic Development Plan provides a strategic direction for the next ten years. It addresses not only the Goldfields-Esperance region's current needs, but also provides a direction for intergenerational sustainability during and beyond the resource boom.

Goldfields-Esperance Project Planning Workshops

The Goldfields-Esperance Development Commission and Regional Development Australia Goldfields-Esperance are presenting a series of workshops aimed at developing the skills of individuals and organisations in planning for project, writing grant applications, and managing grant funding.

The Project Planning workshops will provide attendees with an understanding of project planning concepts including components which will be beneficial in writing grant applications.

The June workshops will be held in Kalgoorlie, Leonora and Esperance. Jodie Mortadza will be presenting the workshops and offering one-on-one sessions. The one-on-one sessions are a great opportunity to ask questions and have high quality feedback provided on your project plan.

Visit www.gedc.wa.gov.au to download the full 2011 program or phone Carla on (08) 9091 6051 for more information.

Coming in September 2011 - Grant Writing and Grant Management.
